Mr Francis Kalifat, the new President of CRIF, which will make its official position on June 29 speaks at the solemn moment and thus very symbolic, the "Adan" call to prayer announced breaking the fast: "I wanted to express our gratitude this invitation in a pious verse that I let you find in the Bible on the expectation about the a'abri and latent. This invitation makes sense within all religions to make sense, in the sense of experimentation, by smell, the gulf and sense as meaning and direction. This meeting we requisitioned to make sense also in this country. Fraternity is dear to the French It is the turn of Abdallah Zekri, President of the National Observatory against Islamophobia and representative of the CFCM, made desalination coming from Nimes.

"This is the first time you invite a head of the CFCM and this is the first time that a representative of the CFCM said yes to the invitation, and I am tonight. I said that we can be different and have different opinions but in Islam we are all against terrorism and therefore we condemn it. And we have to sit between Muslims and between Muslims to discuss around a table. I can not accept you assault someone because he is Jewish or because he is Muslim. The acts have become increasingly violent since the terrorist acts and I think we must work together with Jews and Muslims and will pass the one and the other and even the Christian graves were desecrated their cemeteries. They do not even respect the dead more. Mr. Zekri concludes with a provocation to es politicians: "I ask the political and also the media to stop with the controversy about Muslims and others ... What Jean-Christophe Lagarde, mayor of Drancy and MP of the 5th district of Seine Saint Denis immediately after replied: "the communities were scattered and a common future will Jewish and Protestant and Catholic University ca happened quite naturally for some and others have learned to know each other. Or some crazy group of Israeli Palestino took the problem to take control del primer Drancy. And it is the State which organized the worship of Muslims in the mosque. We see these barbarians who used religion to make anti Islam propaganda.

"-----

Before know here we need also to better know the Muslim religion to understand the secular in our neighbourhoods and cities. Version Islamophobia to challenge secularism, gold is needed as the state better control freedom of religion, which is a fundamental right and the ability to change your mind which must be defended. By sharing a meal together which is why we are here today and we need to find better Islam, often there hostage religion. Policies have rather due to open (CFCM secretary to the opposition because I think we as political leaders rise and twice as victims are often Muslim. No one, nor nobody or even not barbarism will stop us to continue to fight. "
